# UNITED STATES PATENT OFFICE.

ALVA L. KITSELMAN, OF RIDGEVILLE, INDIANA.

## DESIGN FOR A WIRE FENCE.

SPECIFICATION forming part of Design No. 29,159, dated August 2, 1898.

Application filed January 26, 1898. Serial No. 668,079. Term of patent 7 years.

*To all whom it may concern:*

Be it known that I, ALVA L. KITSELMAN, a citizen of the United States, residing at Ridgeville, in the county of Randolph and State of Indiana, have invented a new and original Design for a Wire Fence, of which the following is a specification.

This invention relates to a new and original design for a wire fence; and it has for its object to provide a design of this character that shall be both useful and ornamental.

The leading feature of the design resides in a wire fence having a series of longitudinal parallel twisted cables and a series of twisted cross-wires interwoven with the cables and crossing each other at one side of the intermediate cable to form a series of X-shaped figures with plain diamond-shaped meshes alternating therewith, said cross-wires having their portions at the other side of the intermediate cable bent at an obtuse angle and forming the boundary-lines of a series of disconnected diamond-shaped meshes.

In the drawing the figure is a plan view or

elevation of a section of a wire fence or fencing embodying the herein-described design. 25

Referring to the drawing, the numeral 1 designates the longitudinal parallel twisted cables of the fence, which are interwoven with the twisted cross-wires 2. The wires 2 cross each other at one side of the cable and form a longitudinally-alined series of X-shaped figures 4, which alternate with plain diamond-shaped meshes, and at the opposite side of said intermediate cable the cross-wires 2 are provided with obtuse-angled portions 5, which are arranged to form a longitudinal series of disconnected plain diamond-shaped meshes 6. 30 35

What is claimed is—

The design for a wire fence herein shown and described. 40

In testimony that I claim the foregoing as my own I have hereto affixed my signature in the presence of two witnesses.

ALVA L. KITSELMAN.
